COMMUNITY

Who benefits from FIRE?

In a word – everyone! Some disabilities are visible. Others are not. Some students require additional support daily. Others need assistance only occasionally. What matters most is that students have access to support when they need it. FIRE helps schools provide resources and support so students can succeed and make progress toward goals. Inclusion makes learning better for ALL students and provides a perfect opportunity for living our Catholic faith daily.

- ▶ Hire para-professionals who provide appropriate support to students
- ▶ Hire special educators who guide instruction so students meet goals
- ▶ Acquire technology, curriculum and adaptive equipment that enhance learning
- ▶ Offer professional development and training so educators can address students' unique challenges more effectively
- ▶ Continue opening the doors of Catholic schools to new students with disabilities and learning differences

FIRE OPENS DOORS, HEARTS AND MINDS.

Can you imagine the heartache of being told your parish school was not able or willing to welcome your child with disabilities and learning differences? Lack of resources is often cited as a reason for turning away students with disabilities. It shouldn't be that way at Catholic schools.

In the Diocese of Kansas City-St. Joseph, the FIRE Foundation helps schools create educational environments where students with disabilities and learning differences learn, flourish, and thrive alongside their typically developing peers. Through fundraising and advocacy, FIRE lights the way for children with a range of disabilities to share in the opportunities that Catholic schools provide. Inclusive education fosters a culture of acceptance and compassion where ALL students grow together in faith, knowledge, and friendship. Without funding from FIRE, most students with disabilities and learning differences would not be able to attend Catholic schools.

As FIRE celebrates its 28th year, the Foundation welcomes new opportunities to ignite inclusive Catholic education. Pope Francis calls us to "build an educational relationship with each student, who must feel welcomed and loved for what he or she is, with all of the limitations or potential." It is a blessing and a privilege to partner with Catholic schools that are committed to embracing the call to serve all learners.
